

ATF 236.15

Description	<p>A very high graded, very low viscosity automatic transmission fluid based on special selected synthetic base oils, with a high viscosity index and a number of selected additives to obtain the following properties:</p> <ul style="list-style-type: none"> - important contribution fuel economy - excellent lubrication - very good resistance against oxidation and a very high thermal stability - excellent and very stable friction characteristics that enable longer oil-replacement intervals - excellent resistance against foaming - excellent protection against wear - a very high and stable viscosity index - dark blue coloured 	
Application	<p>This premium synthetic product is specially formulated for the lubrication of the latest generation of automatic 7G-Tronic Plus transmissions from Mercedes-Benz for which an oil with the specification MB 236.15 is required. This oil contributes considerably to the realization of fuel saving.</p>
